ISO Standards for use in the oil & gas industry

The image displays a central illustration of an offshore oil rig on a platform, with various ISO standards listed around it. The standards are color-coded: brown for 2011 issues and green for 2012 issues. Logos for OGP and ISO are also present.

001000 Basic safety code of practice	0010001 Safety case for offshore production facilities	0010002 Safety case for offshore production facilities - process safety	0010003 Safety case for offshore production facilities - structural integrity	0010004 Safety case for offshore production facilities - environmental	0010005 Safety case for offshore production facilities - human factors	0010006 Safety case for offshore production facilities - fire and explosion	0010007 Safety case for offshore production facilities - marine operations	0010008 Safety case for offshore production facilities - other risks
0010010 Health, safety and environment management	0010011 Safety case for offshore production facilities - process safety	0010012 Safety case for offshore production facilities - structural integrity	0010013 Safety case for offshore production facilities - environmental	0010014 Safety case for offshore production facilities - human factors	0010015 Safety case for offshore production facilities - fire and explosion	0010016 Safety case for offshore production facilities - marine operations	0010017 Safety case for offshore production facilities - other risks	0010018 Safety case for offshore production facilities - other risks
